

**Paper Dispersants**

Product	Chemical nature	Dose
---------	-----------------	------

**Dispersants for water circuits in the paper industry**

DISPERSENE-50	Biodegradable dispersant based on non-ionic surfactants.	5-30 ppm in recirculating water 0,5-3 ppm in single-pass systems 20-35 ppm in highly fouled systems
DISPERSENE-424/PLUS	Concentrated dispersant/anti-scalant based on polycarboxylic compounds and phosphonic derivatives.	10-50 ppm in recirculating water
DISPERSENE-AC/41	Dispersant/Anti-scalant based on acrylic polymers.	10-50 ppm over the feed volume
